Independent auditors' report on the limited assurance engagement of the "Saipem Sustainability" Report of Saipem Group as of 31st December 2012

To the Shareholders
of Saipem S.p.A.

1. We have carried out the limited assurance engagement of the "Saipem Sustainability" Report of Saipem Group (hereinafter "the Group") as of 31 December 2012. The Directors of Saipem S.p.A. are responsible for the preparation of the "Saipem Sustainability" Report in accordance with the reporting principles detailed in the paragraph "Methodology and Reporting Criteria", as well as for determining the Group's commitments regarding the sustainability performance and the reporting of achieved results. The Directors of Saipem S.p.A. are also responsible for the identification of stakeholders and of significant matters to report, as well as implementing and maintaining appropriate processes to manage and control internally data and disclosures indicated in the "Saipem Sustainability" Report. Our responsibility is to issue this report on the basis of the work performed.
2. Our work has been conducted in accordance with the principles and guidelines established by the "International Standard on Assurance Engagements 3000 - Assurance Engagements other than Audits or Reviews of Historical Financial Information" ("ISAE 3000"), issued by the International Auditing and Assurance Standards Board. This standard requires the compliance with ethical principles ("Code of Ethics for Professional Accountants" issued by the International Federation of Accountants - I.F.A.C.), including professional independence, as well as planning and executing our work in order to obtain a limited assurance, rather than a reasonable assurance, that the "Saipem Sustainability" Report is free from material misstatements. A limited assurance engagement of the "Saipem Sustainability" Report consists in making inquiries, primarily with company's personnel responsible for the preparation of information included in the "Saipem Sustainability" Report, in the analysis of the "Saipem Sustainability" Report and in other procedures in order to obtain evidences considered appropriate. The procedures performed are summarized below:
 - a. comparison between the economic and financial information and data included in the "Saipem Sustainability" Report with those included in the Group consolidated financial statements as of 31 December 2012, on which we issued our auditor's report on 3rd April 2013, pursuant to art. 14 and 16 of Legislative Decree n. 39 dated 27th January 2010;
 - b. analysis of processes that support the generation, recording and management of the quantitative data presented in the "Saipem Sustainability" Report. In particular, we have carried out the following procedures:
 - interviews and discussions with Saipem S.p.A.'s management to obtain an understanding about the information, accounting and reporting system in use for the preparation of the "Saipem Sustainability" Report as well as of the internal control processes and procedures supporting the collection, aggregation, processing and transmission of data and information to the department responsible for the preparation of the "Saipem Sustainability" Report;

Iscritta all'Albo Speciale delle società di revisione
Consob al progressivo n. 2 delibera n. 10831 del 16/7/1997

A member firm of Ernst & Young Global Limited

- interviews and discussions with Ersai Caspian Contractor LLC's personnel carried out in Aktau (Kazakhstan) and on-site verifications at operations in Kuryk (Kazakhstan);
 - analysis on a sample basis of the documentation supporting the preparation of the "Saipem Sustainability" Report, in order to obtain evidences of the processes in use, their adequacy and the operation of the internal control system for the correct treatment of data and information in relation to the objectives described in the "Saipem Sustainability" Report;
- c. analysis, on a sample basis, of the compliance of the qualitative information included in the "Saipem Sustainability" Report with the guidelines identified in paragraph 1 of this report and of their internal consistency, with particular reference to the strategy, the sustainability policies and the identification of the significant matters for any category of stakeholders;
- d. analysis of the process relating to the engagement of stakeholders, with reference to the procedures applied;
- e. obtaining of the representation letter, signed by the legal representative of Saipem S.p.A., relating to the compliance of the "Saipem Sustainability" Report with the guidelines indicated in paragraph 1, as well as to the reliability and completeness of information and data presented in the "Saipem Sustainability" Report.

No procedures have been performed on data and information reported in the section "Sustainability as value generator" of the "Saipem Sustainability" Report.

A limited assurance engagement is substantially less in scope than a reasonable assurance engagement performed in accordance with ISAE 3000 and consequently we may not have become aware of all the significant events and circumstances which we could have identified had we performed a reasonable assurance engagement.

With respect to the data and information relating to the prior year, presented for comparative purposes, reference should be made to our report issued on 28th March 2012.

3. Based on our work, nothing has come to our attention that causes us to believe that the "Saipem Sustainability" Report of the Saipem Group as of 31st December 2012 is not in compliance, in all material respects, with the reporting principles stated in the paragraph "Methodology and Reporting Criteria".
